Georgia's experience on BUR Process Guidance Tool

Maia Tskhvaradze

Introduction

- **Georgia** country in the Caucasus region
- Population – 3.5 mln.

Joined:

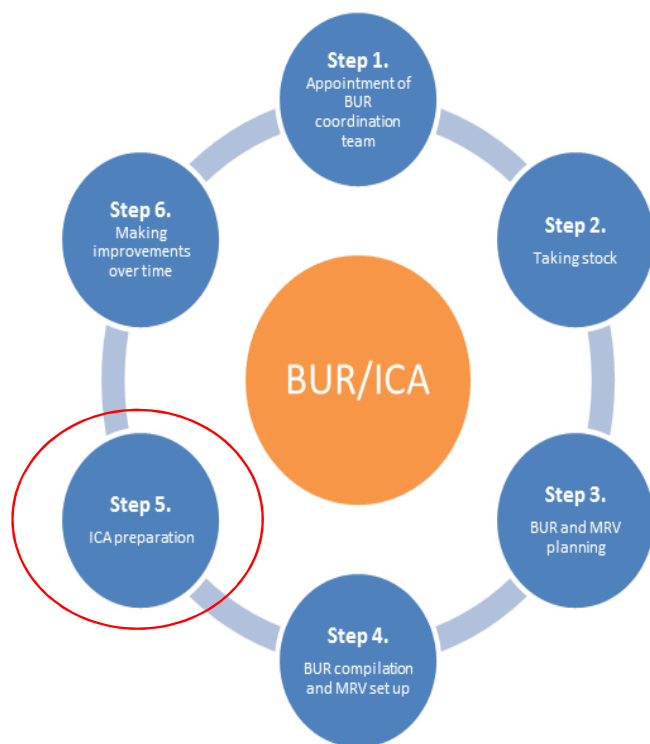

- UNFCCC process in 1994 (Non-Annex 1)
- Kyoto Protocol in 1999
- Copenhagen Accord in 2011
- Paris Agreement - 2015

Georgia's First Biennial Update Report

BUR 1 consolidates:

- National circumstances and inventory of GHG emissions for 2010-2013
- Brief overview of proposed MRV
- Country's progress with mitigation actions and constraints
- Gaps, and related financial, technical and capacity needs
- Builds on the findings and recommendations of the 3rd NC

Country experience on the six main steps for BUR/ICA

- Step 1 Appointing the BUR team
- Step 2 Taking stock
- Step 3 BUR and MRV planning
- Step 4 BUR compilation and MRV set up
- **Step 5 ICA preparation**
- Step 6 Making improvement

Conclusions on Tool

- ✓ **Function:** The tool works properly when entering the information
- ✓ **Results:** Estimation of the calculated time periods works properly
- ✓ **Scope and approach:** Tool captures all key steps and activities necessary for the process
- ✓ **User-friendliness:** Structure is easy to follow, time-estimating buttons are easy to understand
- ✓ **Clarity:** Text is very clear, easily readable and well arranged

Thank You
