# Introduction

- Developed in context of Information Matters (IM) project
  - IM builds up and strengthens in-country capacities for domestic MRV systems and enhanced reporting of BURs (including GHG inventories and NCs)
  - Partner countries: Chile, Dominican Republic, Ghana, Philippines (Phase 1); Colombia, Egypt, Georgia, Viet Nam (Phase 2)
- IM provides tailor-made in-country capacity-building and trainings, peer-to peer exchange and **knowledge products and tools**

# BUR Process Guidance Tool

- Based on hands on experiences in IM partner countries
- Aims to assist countries in planning for and developing their BURs and undergoing the ICA process
- **User group**: mainly for countries in the process of developing their first BUR and undergoing the ICA for the first time
- ...will soon also be available in **Spanish** and **French**

## Other IM knowledge products and tools

- (1) Stock Taking Tool:** Overview of a country's MRV & mitigation architecture *(also in Spanish and French)*
- (2) BUR Template:** Guidance for developing content of the BUR *(also in Spanish and French)*
- (3) Guidance for ICA:** Guidance & efforts required for the ICA process
- (4) Good Practice Study on GHG Inventories in the Waste Sector** of non-Annex I Parties *(also in Spanish)*
